

To enable the twin stick nature of the controller you will need to go into the input manager and separate the axis such that WASD and Directional arrows are independent of each other, to do this change the other Horizontal and Vertical controls and label them HorizontalAlt and VerticalAlt, and remove WASD control from one and Arrow key control from the other.

This is what it should look like:

▼ HorizontalAlt

Name	HorizontalAlt
Descriptive Name	
Descriptive Negative Name	
Negative Button	left
Positive Button	right
Alt Negative Button	
Alt Positive Button	
Gravity	3
Dead	0.001
Sensitivity	3
Snap	<input checked="" type="checkbox"/>
Invert	<input type="checkbox"/>
Type	Key or Mouse Button ▼
Axis	X axis ▼
Joy Num	Get Motion from all Joystick ▼

▼ VerticalAlt

Name	VerticalAlt
Descriptive Name	
Descriptive Negative Name	
Negative Button	down
Positive Button	up
Alt Negative Button	
Alt Positive Button	
Gravity	3
Dead	0.001
Sensitivity	3
Snap	<input checked="" type="checkbox"/>
Invert	<input type="checkbox"/>
Type	Key or Mouse Button ▼
Axis	X axis ▼
Joy Num	Get Motion from all Joystick ▼
